

Module 6: Genomic integration

A

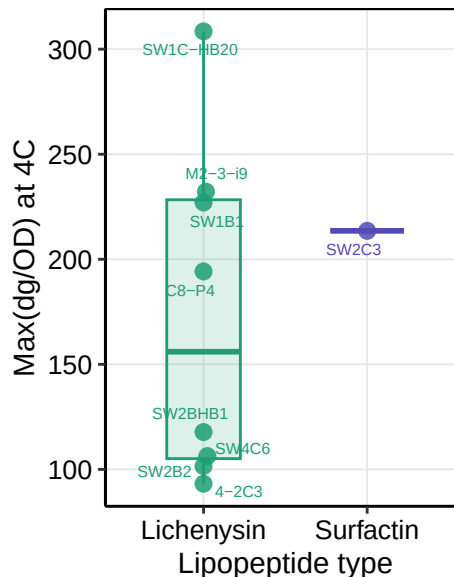

H3: Lipopeptide BGC predicts cold-surfactant high production

Wilcoxon W=16 p=0.0606 r=0.556

B

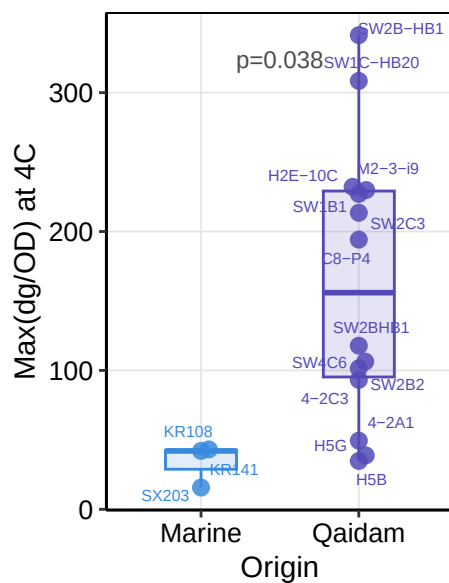

SW2C3 is the only Surfactin producer

C

Qaidam vs Marine production at 4C

Wilcoxon p=0.0376

D

CSI class by BGC status

BGC-positive strains enriched in Cold-stimulated class
